

## RESPONSIBILITIES OF COACHES

As part of my service to Family Coaching, I agree to use the techniques I have been taught through the training only in circumstances, situations, or activities in which I have been directed to participate by my Family Coaching Director.

I will inform the families that I am not a licensed professional counselor but a trained family coach who will be able to listen, support, and encourage that family by sharing ideas to help them overcome their problems.

I agree to honor that confidentiality of the families in my care by agreeing that all statements made by my families are of a confidential nature including all written information. These statements may not be disclosed without the written consent of the families involved, except to the coach's director.

After each session with my families, I will complete a "Report on Families" form to be given to my Area Director with a copy in the family's folder.
